AEMT License Renewal Education Record

Licensed EMS personnel may submit renewal application and documentation to the EMS Bureau up to six (6) months prior to the current license expiration date. Continuing education (CE) taken after early submission of a renewal application may be counted as CE for the next licensure cycle. Prior to the expiration date of the current license, the licensee must submit written notification to the EMS Bureau of the intention to use those CE hours for the next licensure cycle.

A licensee certified by a national EMS certification body may petition the Department to review the certification standards under which the licensee was certified. The Department may waive specific duplicated continuing educational requirements where appropriate. When an external education requirement is found to be more rigorous than these rules, the Department may elect to renew a license based on that education. IDAPA 16.01.07.120.02.a

NREMT# _____

OR

An AEMT must complete a minimum of **54** total continuing education hours (CE hours) within the 24 months preceding their expiration date. Documentation requirements and requirements for CE hours are defined in IDAPA 16.01.07.120-325.
